1 PROJECT STATUS REPORT PURPOSE

The Project Status Report is a document that Project Managers may use as a means of formal regular reporting on the status of a project to the Project Adviser, Class Professor and key project stakeholders, including the client.

2 PROJECT STATUS REPORT TEMPLATE

2.1 Project Status Report Details

This status report focuses on the changes needed to be made to the documentation from the previous term.

Update Documentation

For the period of September 25-29, 2017, team members plan to do revisions for the documentation and to be able to include the 13 UML Diagrams, that was discussed to us, in the document.

- Add the 10 UML Diagrams in the Final Document.
- Revise parts of the document

Project impact of milestone success or failure for project remainder

We finished all the revisions needed to be done in the document and still on progress on the prototype and adding of the other UML Diagrams.

If the UML Diagrams are not finished by the half of the midterm period, the team may have a delay in focusing with the prototype. Also, if the client meeting is conducted late and there are revisions to be made, the team will cram during the final period.
